

## WELCOME TO OUR CONSTELLATION

### WHAT IS ARGO NAVIS?

If we had to define [Argo Navis...](#) we would do it in that way!

Argo Navis is a creative professional development network. The members are hard-working and creative people who actively collaborate in ideas and share a common philosophy and values. Argo Navis aims to become a creative idea hub that stimulates local, social, economic and cultural development. You are Argo Navis network!

### WHAT DO WE WANT TO BUILD?

Argo Navis seeks to become an initiative of reference in Galicia in the field of the creation of differential value through collaborative work, which builds confidence and creates social capital, promoting innovation through multidisciplinary and collective intelligence.

### WHICH ARE OUR VALUES?

The argonauts want to be different, those are the things that are moving us!

- To estimate personal development and to create differential value through the impulse of a creative and active job network composed by people who assume values as PROACTIVITY, OPTIMISM, INNOVATION and CONTINUOUS CREATIVITY, combined with a COHERENT, COMMITTED, RESPECTFUL and PROFESSIONAL attitude.
- To impulse a NEW OPEN AND COLLABORATIVE EMPLOYMENT MODEL, innovating in the new ways of working, living and collaborating, generating social spaces which can offer to the people knowledge intersection, contacts, different experiences and culture out of the traditional consumption cycle, pursuing didactic and public participation as the basis of development.
- To promote a INCLUSIVE, SUPPORTIVE AND NON-DISCRIMINATORY WORK SPACE because of the gender, class, race or sexual orientation, emphasizing the promotion of values as cooperation, tolerance and equality.
- To impulse an initiative committed to the society, a network with a cultural identity that activates and intensifies LOCAL DEVELOPMENT through the creation of social capital.
- To promote SUSTAINABLE DEVELOPMENT, pointing out the environmental caring, energy efficiency and the protection of nature.

## WHICH ARE THE THINGS WE ENJOY DOING?

## AT THE HELM OF THE SHIP

We are 6 cofounders, here it is our contact information!

Elisa Díaz  
Architect, [Estudio Xarda](#)
